THE TREASURE URNS IN SKULL CAVE WERE EMPTY...LOOTED BY A MASTER CRIMINAL WHO HAD STRUCK QUICKLY AND THEN FLED BACK TO LONDON, TO ENJOY THE PROCEEDS.. BUT HE UNDER-ESTIMATED THE PHANTOM'S DETERMINATION TO SAFEGUARD THE SACRED "TREASURE OF THE BANDARI!"

CHINESE

DIYOUNE

(Lesson 6)

More people speak Chinese than any other language in the world. However there are dialects such as Cantonese, Wu, Kan-Hakka, Min, and Hsiang. The Chinese you are going to learn is the official language of the People's Republic of China and also of the Republic of Taiwan. It is known as Mandarin. Strange as it may seem, if two Chinese meet who speak different dialects and find it difficult to understand each other, they still can read the same newspapers or books.

This is because Chinese, unlike most languages, is not written alphabetically. But in a script-sometimes called Ideographs-which was originally derived from picture writing. As a result of the long simplification process, that took place before the 4th. Century (B.C.), the pictorial quality is no longer recognizable. This need not bother you for you are going to learn how to speak Chinese and not to write it.

Chinese is a tonal language. In Mandarin there are 4 tones. If sometimes you should change the tone of a certain word-you can also change its meaning. The 4 tones are easy to learn and to use. 1st tone-as though to show surprise-ah; 2nd tone as though to question-eh? 3rd tone as though to show doubt-oh, oh; and 4th tone as though to emphasize something-oh!

Thus: Ma in first tone means mother; in second tone means hemp; in third tone means hare and in fourth tone means to scold.

Symbols are sometimes used to designate tones: 1.- 2./3~ 4^ And sometimes the numbers themselves are used.

As you need keys to pronounce, we will give them to you. But keep this in mind: a-like the a in father; o-like aw in saw; e like er in her with the r silent; i like the ee in sweet; u like oo in too; And H as in the he in her but strongly guttural. Finals: en like the en in amen and ao like ow in how. Now for some words, phrases and sentences connected with meals we eat.

Shem2-ma di4-fang you3 haude fangwar?-Where is

If there are several of you, then you say women you.
You can figure out the first means I want. The second
means we want. Then add whatever it is that you
wish.

You want to see a menu so that you may know what
to order. Wo keyi kan kan je tsai dan ma? May I see the
menu? tsai4-dan3-menu. Kan-kan-to see. Then you
tell the waiter: Ching3 gei2 wo3. Please bring
me. Actually you can then point to the item on the
menu you wish. When you are finished eating, you
want your bill: Ching ni kai jangdan lai-Please bring
me the bill. Ching-please jangdan-bill lai(here it
means) to bring.

Wo3 e4 la.-I am hungry. Wo3 ke2 la, I am thirsty. If
you are very hungry you say: Wo e ji le. You ask for
chopsticks. I found them not so easy to handle the first
time. The waiter may say to you: Ni hui na kuwai-tz
ma?-Do you know how to handle chop sticks? You
reply: Wo hui-I can. Wo bu hui-I can't. Ni yao he kafei.
haish he kaka?-You want to drink coffee or cocoa?
Then you reply: Wo yao he kaka-I want to drink cocoa.
Or, Wo yao ke kafei-I want to drink coffee. When he
brings you the coffee, he may then ask: Ni yao jia
niuai ma? You want to add milk? Remember: Wo
yao-I want. Wo bu yao-I do not want. If you really
want an experience, try hot red tea. Then you would
say: Bu he kafei: ye bu he kaka, wo yao red hangcha.-
Neither coffee nor cocoa, I want to drink red hot tea. If
you want sugar, the word is baitang.

Wo chi guo le.-I have eaten. These words are used if
somebody asks you to eat with him and you have
already had the meal. My favorite dessert is still ice-
cream: Bing1-j4-ling2. Enjoy your meals!

there will be more lessons about this most important
language. Be the first in your group to speak it. Each

An Important Message To Every Man And Woman In America Losing His Or Her Hair

If you are troubled by thinning hair, dandruff, itchy scalp, if you fear approaching baldness, read the rest of this statement carefully. It may mean the difference to you between saving your hair and losing the rest of it to eventual baldness.

Baldness is simply a matter of subtraction. When the number of new hairs fail to equal the number of falling hair, you end up minus your head of hair (bald). Why not avoid baldness by preventing unnecessary loss of hair? Why not turn the tide of battle on your head by eliminating needless causes of hair loss and give Nature a chance to grow more hair for you? Many of the country's dermatologists and other foremost hair and scalp specialists believe that seborrhea, a common scalp disorder, causes hair loss. What is seborrhea? It is a bacterial infection of the scalp that can eventually cause permanent damage to the hair follicles. Its visible evidence is "thinning" hair. Its end result is baldness. Its symptoms are dry, itchy scalp, dandruff, oily hair, head scales, and progressive hair loss.

So, if you are beginning to notice that your forehead is getting larger, beginning to notice that there is too much hair on your comb, beginning to be worried about the dry-

ness of your hair, the itchy scalp, the dandruff — these are Nature's Red Flags warning you of impending baldness. Even if you have been losing your hair for some time, don't let seborrhea rob you of the rest of your hair.

HOW COMATE WORKS ON YOUR SCALP

The development of an amazing new hair and scalp medicine called Comate is specifically designed to control seborrhea and stop the hair loss it causes. It offers the opportunity to thousands of men and women losing their hair to bacterial infection to reverse the battle they are now losing on their scalps. By stopping this impediment to normal hair growth, new hairs can grow as Nature intended.

This is how Comate works: (1) It combines into single scalp treatment the essential corrective factors for normal hair growth. By its rubefacient action it stimulates blood circulation to the scalp, thereby supplying more nutrition to still-alive hair follicles. (2) As a highly effective antiseptic, Comate kills on contact the seborrhea-causing scalp bacteria believed to be a cause of baldness. (3) By its

keratolitic action it dissolves ugly dandruff. By tending to normalize the lubrication of the hair shaft it corrects excessively dry and oily hair. It eliminates head scales and scalp itch.

In short, Comate offers you in a single treatment the best that modern medicine has developed for the preservation of your hair. There is no excuse today except ignorance for any man or woman to neglect seborrhea and pay the penalty of hair loss.

COMATE IS UNCONDITIONALLY GUARANTEED

To you we offer this UNCONDITIONAL GUARANTEE. Treat your scalp to Comate in your own home, following the simple directions. See for yourself in your own mirror how after a few treatments, Comate makes your hair look thicker and alive. How Comate ends your dandruff, stops your scalp itch. How Comate gives your hair a chance to grow. Most men and women report results after the first treatment, some take longer. But we say this to you. If, for any reason, you are not completely satisfied with the improvement in your own case — AT ANY TIME — return the unused portion for a prompt refund. No questions asked.

But don't delay. For the sake of your hair, order Comate today. Nothing — not even Comate — can grow hair from dead follicles. **USE** out the coupon now, and take the first step toward a good head of hair again.

Molt pattern baldness is the cause of the great majority of cases of baldness and excessive hair loss. In such cases neither the Comate treatment nor any other treatment is effective.
